FIREMAN INVENTS HELMET TO SAVE "SMOKE-EATERS"

New Device, Tested at a Cellar Blaze To-Day, Proves a Complete Success.

HOW IT IS OPERATED.

Suction of Water at Hose Nozzle Draws Air to Firemen Through Attached Tube.

"Smoke-eating" may go out of fashion among firemen if a new apparatus tried out today for the first time proves as successful as the initial test indicates.

Another incident of the fire was that Engine Company No. 20, in Lafayette street, made its first run with the two new automobile hose wagons.

Battalion Chief Helm responded to witness the test of the new "smoke helmet."

HOW THE SMOKE HELMET BRINGS AIR TO FIREMAN.

The other end has rubber attachments to hold it near the nozzle of the fire hose.

The inventor has the assurance of Fire Commissioner Johnson that if his device is decided a success every fire station in the city will be equipped with it.

Girl's Odd Accident.

A Flower Hospital ambulance was standing in front of No. 317 East Sixty-second street last night waiting for a pneumonia patient when a boy threw a stone and hit the horse.

KEENE'S DIAMONDS. 1-4 Carat, \$10. 1-2 " " 20. 3-4 " " 29. 1 " " 39.
